

IBERITAL

A NEW
VISION
FOR
A NEW
ERA

VISION

It's time to look ahead.
Disrupt. Improve. Create.
Time to risk, to define
what's next, to stay truthful
to our origins and make
what we think it's best.

It's time to introduce
you the pioneer of the
next-generation espresso
machines. The healthiest,
friendliest and most
efficient machine that
you've ever met.

This is our Vision.

Improving the future of Coffee together with the EU.
Building a sustainable and healthy coffee machine was a common
goal we shared. That's why the Vision project was backed with the
European Union H2020 SME Instrument funds.

This project has received funding from
the European Union's Horizon 2020
research and innovation programme
under the grant agreement n° 717497.

IBERITAL

VISION

BARCELONA

VISION

200 ml of pure water at 95°.

This is what we mean when we promise precision in every water delivery.

PERFECT WATER CONTROL

Coffee, Tea and Steam have now their own, completely independent, water systems and pipes. This way, the water used in each delivery is always served in its best quality, without any residual salt, mineral or alkalinity.

CONTROL THE TEMPERATURE AND THE AMOUNT OF WATER IN EVERY DELIVERY

SET UP TO 4 DIFFERENT DELIVERY PROGRAMMES

WATER AND STEAM HAVE NOW INDEPENDENT CIRCUITS AND SYSTEMS

VISION

A boiler for each group.

A programmable temperature for each boiler.

INDEPENDENT MULTIBOILER SYSTEM

Our Multiple-boiler system, nickel and lead free, helps you optimise the use of energy and obtain the finest temperature stability and precision both in terms of pressure and flow. Program different brewing profiles for every group and save energy effortlessly by choosing the mode that best matches your performance and business flow. All boilers can be independently adjusted and programmed to be in standby mode when off-peak heating necessities.
